Invitation

Dear Sir or Madam,

In acknowledgement of your devotion to supporting youths in their academic, professional and social ventures, the Institute of electrical and electronic Engineers (IEEE) Tunisian Section is honored to solicit your partnership in **the 1st edition** of the Computational Intelligence Society Tunisia Annual Conference (CISTAC).

The event will be taking place in **Hammamet** during **the 7th and 8th of November of the current year**. The congress brings together north of **250+ participants** from all Tunisian institutions with technological disciplines as well as national and international speakers and trainers of which many are famed for their grand successes.

It is with utmost certainty that your contribution, in whichever form you deem fit, would not only be met with rigorous enthusiasm from all attendees but also be fruitful to you in a myriad of ways. Our aim is to satisfy all of our partners, providing you with exceptional opportunities to promote your work and reach your targets.

You will find more details regarding the event, as well as our various sponsorship packages below this letter.

We are looking forward to your collaboration and send our deepest regards.

Sincerely,

**Chair of IEEE CIS Tunisia Section chapter
Boudour Ammar**

Who Are We ?

Founded on January 1, 1963, the IEEE, an acronym for the "Institute of Electrical and Electronics Engineers," stands as the world's largest technical professional organization, entirely dedicated to the advancement of technology for the benefit of humanity.

Who Are We ?

The IEEE CIS Tunisia Chapter : Computational Intelligence Society is the Tunisian branch of the international IEEE society dedicated to computational intelligence.

Founded in June 2009 within the IEEE Tunisia Section, it brings together professionals, researchers, academics, and students passionate about Artificial Intelligence (AI) and its associated technologies.

Event Overview

Executive Summary :

CISTAC is the first IEEE CIS Tunisia Annual Conference, organized by the IEEE Computational Intelligence Society (CIS) Tunisia Chapter in collaboration with the IEEE CIS ENIS Student Branch Chapter and IEEE CIS FSS Student Branch Chapter. The event brings together students, researchers, young professionals, industry experts, and IEEE volunteers .

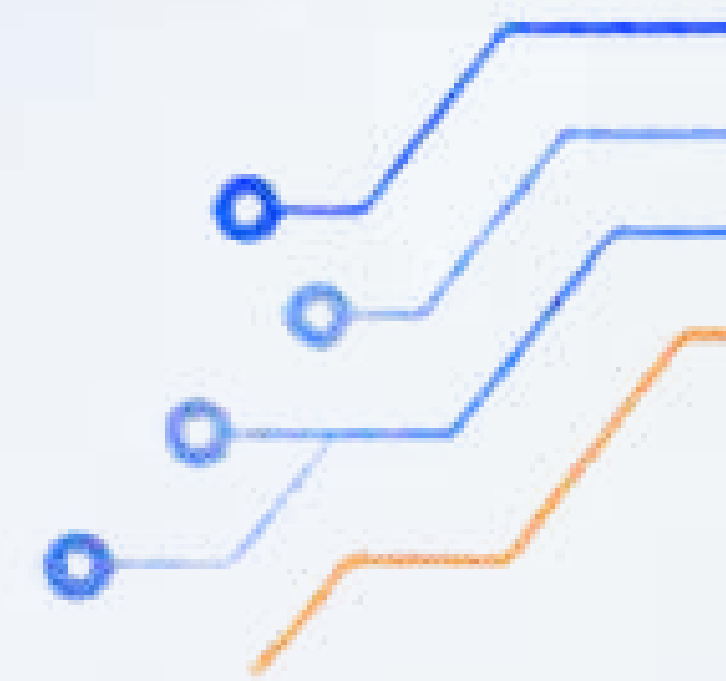

Objectives :

- Unify the IEEE CIS community in Tunisia through the first national CIS Tunisia Annual Conference format (Member Assembly (300 participants) + strategic roadmap + working groups).
- Deliver educational workshops in Computational Intelligence and modern AI practice with hands-on learning outcomes and reproducible materials.
- Strengthen industry engagement via an industry roundtable, use-case clinic, and mentor matching to accelerate academia–industry collaboration.

Target Audience & Participation:

Undergraduate and graduate students, researchers, young professionals, IEEE members, and industry practitioners. The hybrid format includes on-site activities with optional online access to selected sessions and workshop resources.

Event Overview

Event Format :

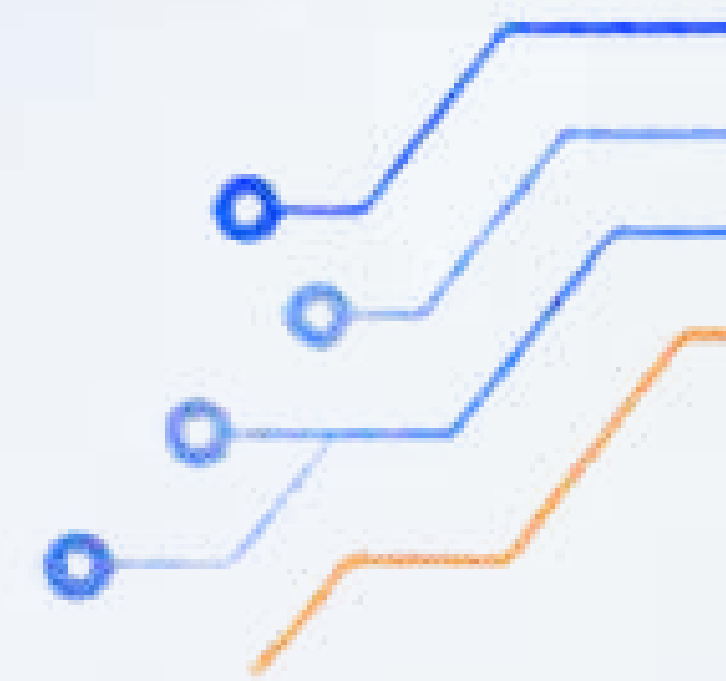

CIS-TAC 1.0 is a two-day event combining the IEEE CIS Tunisia Annual Conference, technical workshops, keynote sessions, industry roundtables, AI competitions, networking activities, and a Doctoral Consortium. The program includes both on-site participation and online access to selected resources and sessions.

Program Tracks :

- **IEEE CIS Annual Conference** – Member Assembly, keynote talks, and chapter engagement.
- **Educational Workshops** – Hands-on training in Computational Intelligence and Artificial Intelligence.
- **Industry Engagement** – Keynotes, roundtables, and academia–industry collaboration.
- **Research & Innovation** – Doctoral Consortium and AI research discussions.
- **AI Competitions** – Technical and non-technical pitching challenges.
- **Networking & Community Building** – Exhibition booths, social activities, and IEEE community engagement.

The purpose of this event is to encourage more than 250 participants to integrate IEEE community especially for research members .

Program

DAY 1:

- **10:00 → 12:30:** Check-in & Registration
- **13:30 → 15:30:** Opening Ceremony DL Session: Fuzzy Logic
- **15:30 → 16:00:** Coffee Break Exhibition Booths and Networking Activities
- **16:00 → 17:30:**
 - **Pitching non technical CIS**
 - **Workshops :**
 - Fine-Tuning LLMs: From Pretraining to Production-Ready Models .
 - Digital Twins Demystified: From Virtual Models to Intelligent Systems .
 - Responsible AI in Practice: Making Black-Box Models Transparent .
 - Pitching Skills — "How to Pitch Your AI Idea and Win".
- **17:30 → 19:00:**
 - **Pitching technical CISTAC: AI4Brain .**
 - **Round Tables:**
 - AI for Scientific Research & Discovery.
 - Research Paper to Prototype.
 - AI for Sustainable Development & Climate.
 - Responsible & Trustworthy AI.
 - **Workshops:**
 - Agentic AI: Building Autonomous Systems That Think, Plan and Act.
 - The Art and Science of Prompt Engineering .
- **19:00 → 21:00:** Dinner
- **21:00 → 23:00:** Evening Activities & Networking

DAY 2:

- **07:00 → 09:00:** Breakfast
- **09:00 → 12:00:** Doctoral Consortium & Poster Presentations
NVIDIA Certifications
Exhibition Booth Challenge– TSYP CIS
- **12:00 → 13:00:** Checkout & Lunch
- **13:00 → 14:30:** Closing Ceremony

Media Plan

Social Media

Posts and videos will be regularly published on LinkedIn, Facebook, and Instagram, providing all the details of the event.

Ambassadors

A representative in each engineering school and faculty will help better spread updates about the event.

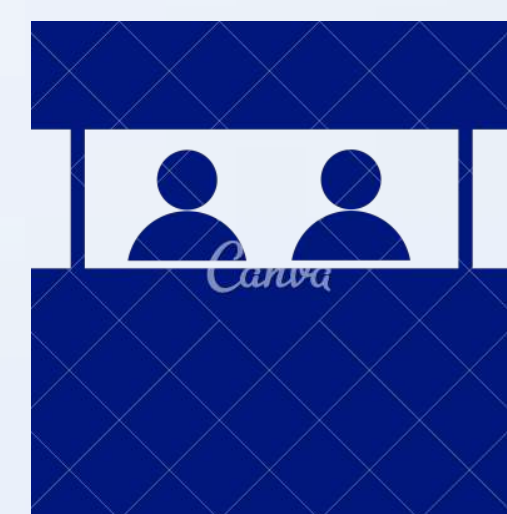

Info Sessions

More than 45 presentations and Q&A sessions to address the questions of interested students.

Stands

Setting up stands in different engineering schools and faculties.

Collaborations

Collaboration with digital creation agencies, influencers, and brands.

Website

Presentation of all news and event details.

Offline Media

Broadcasting segments on television and radio to ensure wide media coverage.

Packs

	1 000 TND	2 500 TND	4 000 TND	6 000 TND
Presence of sponsor delegates at the congress	★	★	★	★
Presence in the welcome pack	Pack	Pack+flyers	All Materials	All Materials
Logo on digital screens, roll-ups, and photobooth	★	★	★	★
Presence on the website	Logo	Logo + Description	Logo + Description + video	Partner Page
Partnership announcement on all social media platforms	★	★	★	★
Logo on social media	★	★	★	★
Access to participants' database		50%	100%	100%
Sponsor speech during the opening ceremony		1min	3min	5min
Personalized photo album		★	★	★
Exhibition stand		small	medium	large
Promotional video of the sponsor's participation			1min	2min
Sponsor speech during the closing ceremony			1min	1.5min
Opportunity to organize a training workshop + experience sharing session			★	★
Accommodation for delegates during the congress			★	★
Exclusive brand integration in event materials			★	★
Installation of your own banner in the main congress hall				★
Technical Challenge Partnership				★
Placement of your own banner in the main congress hall				★

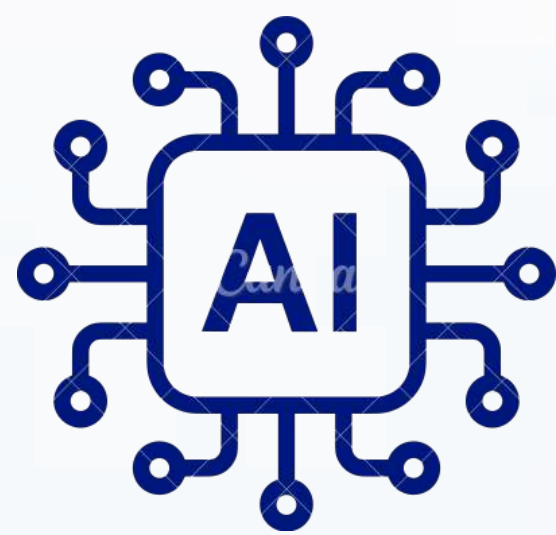

Budget

	Description	Quantity	Unit Cost	Total
Accommodation	Main hall + breakout rooms	250	130	32500
Venue & logistics	Giant screens , Sound systems , lighting	1	5000	5000
	Workshop materials (expanded kits + printing)	12	50	600
	Event printing (bandrolls, welcome pack, roll ups ...)	250	12	3000
		20	30	600
Entertainment	DJ - music band	1	1000	1000
	Night activities : surprize challange & competions	1	500	500
Industry engagement	Industry roundtable & clinic (premium materials & setup)	1	900	900
	Demo corner setup (professional booths & branding)	1	800	800
Catering	Coffee/water breaks (better quality & logistics)	250	5	1250
Total expenses				46150
